(Rep. Christian Farmers Federation)

OFFICERS

KEITH PINDER
General Manager

SUSAN CULLEN
Assistant General Manager

M.J. TAGGART
Assistant General Manager/Accounting

RUTH DAY
Secretary

FARM INCOME STABILIZATION COMMISSION OF ONTARIO

RESPONSIBILITIES

- Administration of the Farm Income Stabilization Act.
- Administer plans of Farm Income Stabilization established by regulations.
- Provide for surveys and research relating to Farm Income Stabilization to obtain statistics for Commission purposes.

THE YEAR IN REVIEW

Stabilization payments of \$4.57 per tonne for barley; \$4.64 per tonne for corn, and \$9.70 per tonne for soybeans were declared for the 1985 sales year.

Stabilization payments are made on registered and eligible production when average returns fall below 95% of the previous five-year average price, plus changes in cash costs of production. Payments are limited to the difference between the 90% and 95% levels. Participating producers are required to register expected sales and pay fees in advance equivalent to an estimated one-third of the expected payouts. Interest is credited to producer fees on deposit and any unused fees and interest are returned at the termination of the program.

Stabilization payments of \$13.1 million were made in the fiscal year.

In order to ease farmers income losses due to falling prices interim payments for corn and soybeans were issued. The interim advance was deducted from final payment.

Stabilization payments comprise two-thirds Government share and one-third farmers' enrollment fees. In the current fiscal year, payments for the grain plan were limited to the Province two-thirds contribution. The farmers' share was retained by the Commission for future grain plan enrollment fees.

For 1986-1988, canola and oats, were added to the existing 1985-1988 grain crops plan.

A three year 1986-1989, stabilization plan for fresh market potatoes was also introduced.

In an effort to improve administrative efficiencies, the time within which a producer has to submit a stabilization claim has been limited to two years from the end of any sales year.

FARM INCOME STABILIZATION COMMISSION OF ONTARIO

AUDITOR'S REPORT

I have examined the balance sheet of the Farm Income Stabilization Commission of Ontario as at March 31, 1987 and the statement of receipts and disbursements for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Commission as at March 31, 1987 and its receipts and disbursements in accordance with the accounting policies described in note 1 to the financial statements applied on a basis consistent with that of the preceding year.

D.F. Archer, F.C.A.,
Provincial Auditor.

Toronto, Ontario,
July 17, 1987.

FARM INCOME STABILIZATION COMMISSION OF ONTARIO

Notes to Financial Statements

March 31, 1987

1. SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting

The Commission uses a cash basis of accounting except for the following modifications:

- (i) For administrative expenses, an additional thirty days is allowed to pay for goods and services pertaining to the fiscal year just ended.
- (ii) For government subsidies an additional thirty days is allowed for the receipt of subsidies pertaining to the fiscal year just ended.

2. ADMINISTRATIVE EXPENSES

Salaries, benefits and other administrative expenses of the Commission are absorbed by the Ministry of Agriculture and Food and are included in the statement of receipts and disbursements. Administrative expenses of the prior year have been disclosed to conform with the 1987 presentation.

3. FARM INCOME STABILIZATION PLANS

Farm income stabilization plans are established by regulations under the Farm Income Stabilization Act. These voluntary plans are designed to stabilize the income of Ontario farmers in periods of low market prices. Federal stabilization support payments are made for the difference between the current market price and 90 per cent of the five-year average market price as adjusted for changes in cash costs of production. On the same basis, provincial plans support prices between 90 and 95 per cent of the five year average price.

Fees are normally collected in advance and are set at a level sufficient to cover approximately one-third of the stabilization support payments in accordance with the provisions of section 6(3) of the Farm Income Stabilization Act. The Province of Ontario provides the other two-thirds.

Stabilization payments are made from the Province's subsidies and the farmers' enrollment fees, with the split being two-thirds and one-third respectively. In the current fiscal year, rather than paying out the farmers' one-third share and requesting payments for the following year's enrollment fees, the Commission retained the farmers' share and applied it against next year's grain plan enrollment fees.

Voluntary stabilization plans exist for the following commodities: grains (corn, soybeans, white beans, winter wheat, barley, oats, canola), fresh market potatoes, and apples.

4. REMUNERATION OF APPOINTEES

Total remuneration of the members of the Commission was \$1,700 during the 1987 fiscal year.

5. COMPARATIVE FIGURES

Comparataive figures have been reclassified where necessary to conform with 1987 presentation.

FARM INCOME STABILIZATION COMMISSION OF ONTARIO

Schedule of Administrative Expenses for the year ended March 31, 1987

	<u>1987</u>	<u>1986</u>
